Late Fall Styles
Ready to Wear

YOU can count on the correctness of these late arrivals. They come direct from makers of national reputation. STYLE is the keynote, it asserts itself in every line. We mention here only an item or two but we show assortments to satisfy anyone—no matter how particular. We pride ourselves on being able to please particular women.

TAILORED SUITS \$15.00. Black, blue, or brown broadcloth suits, 24-inch belted blouse coat with shoulder capes and satin lining, entire suit trimmed with straps, finished with narrow braid and panne velvet edges all piped with satin, \$15.00 each.

PRETTY SUITS \$20.00. Fine English cheviot suits, beautifully tailored and finished, navy and tobacco browns. Louis XV coats with double cape, black satin piping, satin lining, plain full flare 7-gored skirt cut walking length, exceptional values, \$20.00.

NEW SKIRTS \$3.75. English melton pedestrian skirts, blue or brown mixed, cut instep length, finished with straps and buttons, 7 gored, \$3.75.

WALKING SKIRTS \$4.75. Scotch mixed checks broken with white flecks and nubs, brown, blue and gray mixed, broadcloth straps around the hips and down either side of the front, finished with black spread buttons.

FLANNEL WAISTS \$3.00. Handsomely made French flannel waists, regular tailor fashion, plaided back and front, pearl buttons, fancy stock; a special value at \$3.00.

Pretty Coats at \$12.50. Another lot of those pretty melton coats came yesterday. Some fitting cape effect, with stole ends, stitched satin bands, all satin and velvet collar. Tans, black and castors. See them.

COLOR LINE
IN COLLEGE.

Question Puzzling Co-Eds
of the University.

Vada Watson, Bright Negro Girl,
Blackballed by Athens.

Literary Society Will Take up
Case Again Tomorrow.
May Admit Her.

When the members of the Athens Literary Society of the University of Southern California meet tomorrow they will wrestle with one of the most disagreeable problems that has ever confronted the young ladies of the Methodist institution.

The question puzzling the fair co-eds of U.S.C. is whether the color line is to be drawn in their society. Two weeks ago when the name of Miss Vada Watson, a very bright colored girl, who is attending the university, was presented as a candidate for membership in Athens the members of the society voted not to admit her.

Now many of the Athenians are not sure they acted wisely in keeping Miss

MISS VADA WATSON

Watson out of the society simply because she has a dark skin, and the case will be considered again tomorrow afternoon.

The young women of the society have kept their refusal to admit a young colored lady into the organization a secret, even Miss Watson herself being in ignorance until last night of the fact that she was not to be taken into the fold. President Boyard and most of the faculty at first were not informed as to the action the society had taken, but the whole story leaked out yesterday.

Miss Watson entered the university at the beginning of the college year. Her cleverness in the classroom and her lady-like manners attracted the young people to her and she soon was surrounded by many friends. During the second week of school the Athens society gave an elegant reception to the young ladies of the school. Miss Watson attended and was treated with the utmost consideration by everyone.

One of Miss Watson's newly made acquaintances is on the Membership Committee of the Athens Society, and she asked Miss Watson to let her enter her (Vada's) name for membership in the organization. The colored girl, being anxious to get the mood out of her college work, consented.

The names of ten other members were also to be voted on at the meeting and the other candidates were elected on one ballot.

A week later Miss Watson's name was considered and a hot debate ensued. The champions of the negro girl contended that the color line should not be drawn in a Christian institution; that they should not vote out an intelligent girl simply because she had a dark skin, especially when she was so good a worker for her way through college. Some of the young women of the society are fitting themselves for the missionary field and they were loath to be a party to such an unkind act.

Their opponents took the ground that great care should be taken not to allow the colored race to get too strong a hold on our institutions.

But back of their arguments and vastly more convincing to some who did not agree with them or were undecided, was their threat that if Vada was admitted they would quit the Athens Society; and some of the candidates also declared that they would never join the society if Miss Watson was accepted.

When the ballots were counted the friends of the colored girl found that they were defeated by just one vote. The meeting was not largely attended but friends of Miss Watson aver, that all her opponents were there; so they hope that tomorrow's vote, with a full attendance, will result in their favor.

FACULTY MAY TAKE A HAND. If the matter is not satisfactorily adjusted tomorrow it is probable the faculty will take a hand in straightening out the kinks.

President George F. Boyard said last night: "I was not aware a vote had been taken on the question of the admission of Miss Watson into the Athens Society although I had heard that her name had been sent in for membership. I do not care to express any opinion until after the meeting Friday. I desire to leave the management of the literary societies so far as possible in the hands of the students. If they cannot agree the faculty may then take a hand in the matter."

Miss Anna E. Mora, president of Athens Society and a senior in the college said: "When I first saw Miss Watson I felt as if it was my duty to help the girl along for I felt that

she would oftentimes be in need of sympathy. She seems to be an unusually bright girl."

Miss Cora Elyar, secretary of the organization, expressed regret at the course that matters have taken. Some of our members declared they would not remain in the society if we admitted the colored girl and so she was defeated," she said.

VADA SURPRISED. When seen at her home last night Miss Watson had not heard that she had been turned down by the Athens girls.

"It is a surprise to me," she said "for I was told to believe I had been accepted. I have been treated very kindly by all the students of the college. Even those who at first were inclined to treat me coldly have changed greatly in the last few weeks because they just couldn't help being nice to me. I mean to dig to the bottom of this matter at once. I never go where I think I am not wanted, but everyone has been so very good to me I cannot understand it."

LILLIAN SCANLON GOING ON STAGE. WILL SING AT THE ORPHEUM NEXT MONDAY NIGHT.

Popular Contralto of St. Vibiana's to Try Vaudeville on the Big Circuit. Flattering Receptions Given Her During Eastern Tour.

Los Angeles has made another contribution to the stage. Her latest offering is Miss Lillian Scanlon, for eight years a prominent church singer in this city, and a favorite in concert work throughout Southern California.

Miss Scanlon begins an engagement with the Orpheum Circuit Company on the boards of the local house, next Monday night. Her splendid contralto voice has won her many friends with the church choir and then, six years ago, she became contralto soloist at St. Vibiana's, a position which she has filled with satisfaction to the parish and its all-leaves every Sunday.

She has just returned from an extended Eastern tour, having been home for fourteen months. Her sum-

mer was spent in Philadelphia, and one of her notable successes was achieved at Willow Grove Park, where she sang at two concerts before audiences numbering at each nearly 20,000 persons. Her "hit" with her auditors was so immediate that the management sought to make further engagements with the California songster, but other business prevented.

Next Monday night will be Miss Scanlon's initial appearance upon the professional stage, although she has many times appeared at benefits and affairs of an amateur way. Entitled this time her work has been confined strictly to the fields of concert and church singing, but her friends and admirers believe that her broader things are possible. Possessed of a rich, and well-trained voice, with abundant temperament, Miss Scanlon hopes for success in the highest fields of song.

FILIPINOS DUE MONDAY. Applications for Thirty-three of the Students Already Received from Schools in This County.

Mark Keppel, County Superintendent of Schools, received further particulars yesterday regarding the ninety-eight Filipino students on their way to Southern California for an education. His information comes from Prof. Moses of Berkeley, who has been advised by cable from time to time and consequently details are necessarily meager. The boys are due in Los Angeles next Monday, in charge of a traveling superintendent, who has full instructions and will remain here to safeguard the welfare of the little aliens.

It is the plan of the Insular Department to educate fourteen of the boys in each of the seven southern counties of California and the County Superintendent have been asked to receive applications from districts in their jurisdiction that are willing to undertake the work.

Mr. Keppel states that he has already received thirty-three applications as follows: Claremont wants six of the students; Burbank, six; Compton, four; Whittier, five; Gardena, Glendora, Inglewood and San Gabriel, each two; South Pasadena, four. These boys will classify in the primary and grammar grades.

AGENT AVERS
ALLEN'S GUILT.

Local Official Accused in
Land Office Scandal.

Big Profits Made Out of Tricks
With Forest Reserves.

Deals in Which the Government
Always Got the Worst
of it.

The astounding charge is made in Washington that a highly-respected local official is touched by the land department scandal concerning the administration of the United States forest reserves. Col. B. F. Allen, superintendent of forest reserves, is the man named, and it is said he has made fatal admissions to an agent of the government. The facts are not all out yet. Col. Allen makes a general denial of the charges so far as he is concerned, and it is to be hoped that he will come out of the investigation untainted.

A special dispatch to The Times from Washington states that secret agents of the Interior Department who were sent to Los Angeles early in the summer to investigate the manner in which valuable advance information concerning affairs of the land department had been imparted to individuals who made use of the knowledge to their own pecuniary benefit, secured sufficient evidence against F. A. Hyde, a San Francisco land agent, to prove the use of corrupt influence by him in securing surreptitious information of the character in question.

It is alleged that he has been in the practice of securing private information concerning the prospective creations of forest reserves, long in advance of the time when such information should have been made public, and the charge makes special reference to transactions in forest reserves locally controlled from the Los Angeles office, which is in charge of Col. B. F. Allen, superintendent of forest reserves of Southern California.

It is further alleged that evidence was gathered implicating Col. Allen with Hyde in the crooked forest reserve transactions, and that when pressure was brought to bear on Allen by the agent who was here investigating the disclosures concerning the administration of the Southern California forest reserves, he refused to make admissions, which may result in surprising disclosures concerning the administration of the Southern California forest reserves, if the result of the investigation is laid before the Federal grand jury. It is said these admissions are in black and white.

The dispatch states that one of the ways in which Hyde operated fraudulently was to secure advance information when new tracts were recommended for reserve purposes, then to buy up at a very low figure a large acreage of almost worthless strips to be contained within the proposed new reserve, and when the boundaries were created to deed the surplus acreage to the government and receive in exchange lands outside of the reserve, invariably of greater value.

Special reference is made to the southern reserves, but it is inferred that Hyde has not always confined these alleged deals to one portion of the State. Up to about three years ago Col. Allen had supervision over the forest reserves throughout California, his jurisdiction having since been limited to those south of the Tehachep.

COL. ALLEN'S DENIALS. Col. Allen was interviewed last night at Hotel Melrose by a Times reporter concerning the allegations mentioned. He denied that he was implicated in the alleged deals in land, but acknowledged that he knew him, and did not doubt that Hyde was more or less implicated as alleged.

"Has there been an agent of the Interior Department here investigating questionable land deals?" he was asked.

"Yes, I saw him when he was here, about six weeks ago," he replied.

"Was the name of F. A. Hyde connected with the matters under investigation?"

"Yes, they are after Hyde," said Col. Allen.

"Do you think there is anything in the allegations made against him?"

"Well, I am not at liberty to give information concerning the secret agent's investigation. That must come from Washington, and the whole matter will come out when the matter is taken up by the grand jury. Yes, I know Mr. Hyde; he is a land agent, and one of the old settlers, I believe."

"Do you know of any deal of his in connection with California forest reserves of a questionable nature?"

"Well, said Col. Allen, "I am not inclined to doubt that he has made a good deal in this connection."

"In what manner did he operate?"

"I would gladly give you all the information possible if I were at liberty to do so, but I would be criticized by the department for discussing the matter now."

A GILDED ANGEL FOR
CAPT. HOBSON'S NIECE.

MISS IRENE HOBSON, leading woman in the "Hello Bill" company now playing at the Grand, has won a champion in James J. Shirley, a New York financial magnate now tarrying at the Angelus Hotel in this city. Mr. Shirley is a very wealthy mine owner who by chance came

she acquired a great liking for the stage, and announced her intention of adopting it as a life profession. Of course, this raised a bitter storm for her, not only in her family, but among the circles of her society friends, as well. The opposition was all of no avail. Miss Hobson, unmoved by parental

tears and companions' deploring, took herself to New York and entered a dramatic school. She studied, and studied hard, and at the end of her course of instruction she had a number of good offers.

Her beauty and commanding appearance won Elsie de Wolfe, and she was engaged by that clever actress to play the part of a Southern society woman in Miss de Wolfe's production of "The Way of the World."

Although only a short time has elapsed since her entrance into professional theatricals, Miss Hobson was this year given the leading role in "Hello Bill."

COL. F. M. CHAPMAN DRIVING FIRST SPIKE.

gang of peons, arrived in Covina yesterday morning on the Southern Pacific train and at once proceeded to the tearing up of Badillo street and the laying of sufficient steel to comply with the city franchise granted to Mr.

of bribing a government official?"

"That is a legal question on which my opinion would be worthless," said the forestry superintendent, "but I will not bring charges against the official, if any, who was influenced to impart to him secret advance information of land affairs in connection with the forestry department."

"I don't know. My opinion would be worthless on these points. These dispatches contain the first information I have had from Washington concerning

a dispatch from Port Arthur announces that Viceroy Alexieff has returned there from Tallen Wan, where he went to inspect the Russian fleet.

THURSDAY, NOVEMBER 9, 1933.

EVENTS IN LOCAL SOCIETY.

THE portrait here reproduced is that of Mrs. I. E. Tutt, one of Los Angeles' wealthiest and most charming women. She is a striking-looking woman of about 40 years of age, and has a large circle of friends and admirers in Southern California. This portrait, taken by A. L. Moloney, the photographer artist of this city, attracted great attention at the State Convention of Photographers (professionals) held in San Francisco on Thursday, Friday and Saturday of last week.

to Miss Neta Marquis. Tally cards were yellow, bell-shaped cards. Those invited included Mrs. G. Maurice Crow, Mrs. R. P. Hillman, Mrs. H. S. Brown, Mrs. Charles Hixson, Mrs. C. W. Nicklin, Mrs. F. N. Veltz, Mrs. W. W. Klein, Mrs. A. Young, Mrs. E. S. Potter, Miss Blanche Gulberson, Miss Katherine Brady, Miss Myra Scherer, Miss Grace Whitwell, Miss Eunice Harris, Miss Neta Marquis, Miss Nannie Fallis, Miss Louise Torrey, Miss Stan, Miss Alice Barr, Miss Pauline Barr, Miss Frances Thompson, Miss Rachel

Mrs. Tutt herself was in San Francisco, but was not aware that her most artistic and elegant likeness was being created. A furor among frequenters of the exhibition gallery. Another feature of interest regarding the convention was the fact that it was the first professional photographers' convention to be held on the Coast. There were 18 exhibits from all parts of the Union, including New York's most noted galleries, and the unanimous verdict of Messrs. Gamble and Latimer, artists in oil, who were the critics for the occasion, was in favor of Californian work against all others. Moloney was the only photographer from Los Angeles who attended the convention. He had the pleasure of receiving warm encomiums on his exhibit from Latimer. There was no competition, and no prizes nor awards were made. In the opinion of the critics the Los Angeles photographic work is as fine as any turned out in America today.

Luncheon.
An elegant luncheon was tendered to Miss Alice Healy yesterday by Mrs. Paul Allen Crippen of No. 118 West Twenty-eighth street. The canopy of smilax and pink satin ribbons which sheltered the luncheon table was hung with myriads of little pink hearts. The unique place cards were miniature dolls in bridal array. The guests were Miss Healy, Mrs. Edward Talbot, Mrs. Robert Hartwell, Mrs. Richard Hennan, Miss Zaidie Hartwell, Miss Lena Johnston, Miss Grace Whitwell, Miss Mabel Kallack, and Miss Lena Reed.

Finish Party.
Mrs. F. A. McBurney of No. 999 West Thirty-second street was hostess Tuesday afternoon at a progressive finish party. Yellow chrysanthemums and smilax were used in decorating the drawing-rooms and the reception hall. The first prize was won by Mrs. R. P. Hillman, the second by Miss Nannie Fallis, while the consolation prize went

Mennell, Miss Lyulle Eldridge, Miss Helen Stafford, Miss Florence Wright, Miss Nina Chadwick.

G.O.P. Entertained.
The G.O.P., a popular society of the young ladies of the First Methodist Church, was entertained at the home of Mrs. L. J. Rogers, No. 747 East Adams street. An interesting program was given, consisting of instrumental music by Messrs. Davidson and Frowling, vocal music by a quartette, recitation by Adah Rogers, and the telling of stories.

Dinner at Ocean Park.
Mr. and Mrs. Frank Wiggins of Ocean Park entertained at dinner last evening complimentary to Miss Alice Mossa and Dr. Charles M. Lindsay of Santa Monica, whose marriage takes place on the 12th of this month.

Anatomical Contest.
A unique entertainment will take place next Friday evening at the University M. E. Church, one of the main

To Carry Gospel to the Swamps of Guatemala.

THE GUATEMALA MISSIONARY EXPLORERS

LOS ANGELES is becoming the headquarters for an aggressive work in the evangelization of foreign lands by missionaries of the Christian religion, and within the past few years workers have gone out from this city to many parts of the globe. Not only have individuals started under the direction of the various larger church denominations but in some instances good-sized bands have been organized. The city has two educational institutions that make the preparation of the missionary their special work. From one of these, the Bible Training School for Christian Workers, on Boyle Heights, there will soon go out

features being an "anatomical contest." Appropriate readings will be given by Miss Beulah Wright, and the affair is planned by some of the ladies interested in the coming bazaar.

Whist Club.
The Pine Forest Whist Club met with Mrs. A. J. Cogg of No. 166 Lucas avenue Monday afternoon. The guests were Mrs. Stephen Webster and Miss Grace Stevens. The prizes, a gilt clock and a cut glass dish, were awarded to Mrs. Canfield and Miss Stevens.

Interesting Engagement.
An interesting bit of local news is the announcement of the engagement of Miss Edith Louise Weiser of Chicago, now a guest of Dr. and Mrs. Edward Bahrenburg of No. 508 West Washington street, and Dr. George E. Bahrenburg, surgeon at the Home. Miss Weiser is an accomplished musician, and a vocalist of ability. A romance between Dr. Bahrenburg and his intended bride began when they were students at the Northwestern University at Chicago, of which they both are graduates. Dr. Bahrenburg was graduated from the Medical College of the university last year, and immediately came West and was appointed to a position at the Soldiers' Home. One of the events of the past week was a visit to the home of the young people by Mr. and Mrs. Robert Bruce at their home, No. 1541 Wilshire boulevard, where the wedding is still uncertain.

Wedding at Lovejoy Hotel.
Great preparations had been made at the Lovejoy Hotel for the wedding of Miss Kathryn Kidder and Herbert William Coombs, which took place last evening at 8:30 o'clock in the reception hall of the hotel. Across the entire end of the hall where the ceremony took place was a frieze of green, and the room was enmeshed in the feathery chrysanthemums. Smilax was festooned from the chandelier, and English ivy entwined the staircases on both sides, with butterfly bows of illusion resting lightly among the leaves. Beautiful flowers in a basket of flowers by the ring bearer, little Julia Haywood. The bride party made a beautiful picture as they descended the broad stairs to the music of Lohengrin's wedding march, soft music being rendered during the service, followed by "Pierrot's March" from Athalia.

The bride was beautifully gowned in white Mechlin lace over white tulle veiled with Toka net, and carried a shower bouquet of white carnations and mimosas. The bridesmaid, dark hair she wore a white carnation and orange blossoms, while at her throat was a handsome pearl pendant. A gift from the bridegroom, the maid of honor, Miss Helen Sinclair, wore a robe of embroidered chiffon over white silk and carried yellow chrysanthemums. Mrs. Walter Irving Taylor, first matron of honor, wore an exquisite costume of soft blue and white. Leon Shuttler, second matron of honor, wore light blue Mignon crepe chiffon, veiled with white tulle and carried yellow chrysanthemums.

Mr. Coombs was attended by Benjamin F. Mansfield, as best man, and Walter Irving Taylor and Leon Shuttler were the other attendants. A large reception in the assembly room followed the ceremony, the young couple being assisted in receiving by Mrs. Edgar Wallace Kidder, mother of the bride, seated in a robe of black embroidered chiffon over white silk with yoke of old rose point lace. The other ladies of the receiving party were Mrs. Jasper E. Crandall, Mrs. Fred Johnson, Mrs. Fred Hanna, Mrs. Henderson Haywood and Mrs. Reuben Shuttler.

An array of cut glass of every description, silver, etc., filled the gift room to overflowing, a handsome chest of silver coming from Mr. Coombs' friends on the record. After a short trip Mr. and Mrs. Coombs will be at home at No. 2615 West Eighth street.

Reception.
Yesterday afternoon from 3 to 5 o'clock Mrs. Hamilton B. Rollins of West Twenty-eighth street received a large number of friends in honor of Mrs. James H. Rollins, mother of Mr. Rollins, who has recently come here from New York city and is located on Severance street, and Mrs. John L. Sehon of San Diego, who is a guest of Mrs. Rollins. The handsome home was a triumph of the decorator's art. The green and gold French room where the receiving party stood held airy festoons of asparagus with here and there a Marie Antoinette basket, depending from the ceiling. In the living room were large pink roses, while baskets of larger pink roses adorned the walls. In the living room were large pink roses, while baskets of larger pink roses adorned the walls. In the living room were large pink roses, while baskets of larger pink roses adorned the walls.

a new group of missionaries who will labor in the practically untouched fields of Guatemala. This work will probably be supported by the Friends churches of Southern California. There are ten in the Guatemala band, including Mr. and Mrs. Charles L. Rodwell and their three children; Mr. and Mrs. T. J. Kelly, who have spent some time in the Guatemala field; Miss Esther A. Bond, Miss Alice C. Zimmer and Miss Mary M. Moya.

These people have been in attendance at the Training School for the past season, and will be ready to start on their journey about the first of December. They will go by rail to New Orleans, and from thence to Puerto

Barrios, Guatemala, and then onward to Chiquimula, a city of about 10,000 inhabitants, which will be their headquarters. Here they will be joined by C. J. Buckley, who has been working in that country for the past two years, and who went out from this same training school. He is, at present, acting as a courier for the American Bible Society.

The Guatemala band is now holding a series of "farewell meetings" in the Friends churches of Southern California, and next Sunday morning will appear at the Friends Church at Pasadena. They will be given a final public far-well in Los Angeles just before their departure.

half way to the ceiling where other chrysanthemums drooped down to meet it, while on the piano were little automata filled with pink roses. Yellow reigned in the hall, punch being served in a bowl of golden chrysanthemums.

In the dining-room where Reynolds served were the great tawny King chrysanthemums blending rarely with the mahogany furnishings. Mrs. Rollins received her guests in an imported robe of silk embroidered tissue and heavy thread lace in champagne color, over white silk and white chiffon. The bodice was finished with touches of blue panne.

The ladies who assisted Mrs. Rollins were Mrs. Wiloughby Rodman, Mrs. West Hughes, Mrs. Lynn Helen, Mrs. Scott Helm, Mrs. H. C. Turner and Mrs. Lucia Bennett. Arend's Orchestra furnished music for the occasion.

Notes and Personal.
Tomorrow evening will occur the formal opening of Hotel Lovejoy, at Grand avenue and Third street, with a ball and a musical programme.

Mr. and Mrs. Percy Weary (nee Helena Dow of Los Angeles) have given up their home at Totteridge and have taken up residence at 1215 West 10th street, Westminister. Mrs. Weary studied for the stage in New York, but left for her home in England, where she gave up her ambition of a stage career.

Level Meridiano and wife of Washington, D. C., are touring the Pacific Coast and spending a few weeks in Los Angeles. Mr. Meridiano is a prominent business man of the Capital City.

John P. Clum, her daughter, Miss Carol Clum, and her mother, Mrs. Atwood, have returned to Los Angeles after her marriage with Mr. West. They have been staying during the summer, and have taken apartments at No. 121 Olive street.

CHAMBER BUSINESS.
Public Act Commission Appointed.

Annual Banquet Decided on—Statistics on Manufactures and Fruit. At the suggestion of the Municipal League, Mayor Snyder, the Board of Directors of the Chamber of Commerce, at yesterday's meeting, appointed a committee to submit a list of names of citizens from which to select a Public Act Commission. Adolph Petach, Harry Killinger, Brook, and Dr. John R. Haynes were appointed on the committee.

The Committee on Manufactures was instructed to compile statistics on local manufactures, the collection to be filed in the aggregate for publication by the chamber.

To Director Story was referred a communication from the State Board of Trade of San Francisco asking the chamber to cooperate in securing definite information relative to the actual amount of returns received from the sale of fruits in this district.

The Board of Trade of Whittier has invited the members of the Board of Directors of the local chamber to a banquet to be held here Saturday evening to celebrate the completion of the electric road connecting the Quaker City and Los Angeles. One hundred tickets were supplied for distribution by the board among the members of the chamber.

J. P. Lippincott, local government hydrographer, addressed the board in the interest of the National Irrigation Bill, as relating to California. A vote of thanks was extended to Milo M. Potter for his entertainment of Gen. Black, commander-in-chief of the G.A.R., and family during their recent visit to the city.

It was voted to hold the chamber's annual banquet February 22, as usual, and committees will be appointed to take the matter up.

The committee of the chamber which assisted in the reception of the Chinese reformer, Liang Chi Chao, during his recent visit, was thanked and discharged.

The following new members were elected to the chamber: M. J. McLees, E. A. Marcher, W. W. Metzger, W. H. Berry, J. R. Green, W. H. Mead, Garden City Rooming House.

NAZARENE ASSEMBLY.
New Denomination Will Reach Out in the Field of Home and Foreign Mission Work.

The Church of the Nazarene, now holding its general assembly in this city, was organized here eight years ago by Rev. Dr. P. F. Bresee, who was pastor of the First Methodist Episcopal Church from 1883 to 1886. While the growth of the new denomination has not been phenomenal, it has increased to fifteen congregations. Yesterday it was decided at the business session, where it had become important enough to take up a more extended work. A resolution was accordingly

My Treatment for... MEN is for the Exact Cause

Not by Mail

I leave this to those who guess. When I give a case my personal attention there will be no guesswork. I will know just what to do and you will know just what you can depend upon. I can accomplish more in one week than can ever be had by mail treatment. There is nothing left for you to guess at. I treat the EXACT CAUSE, with a certainty of results, and wait for my fee until you are cured.

By my direct method of setting at the exact cause responsible for the trouble, I secure more in one week to ten days than can ever be accomplished by guessing through the mail. I am able to say this through the many patients who have come to me for cure who have had expensive experience in mail treatment. My examinations and facilities are complete, and you will at once see the reliability of my methods, whereby guesswork never enters. My treatment is the most effective known, and is not in common use.

Function Decline.
Termed Weakness by Some. I am positive the treatment I employ in the cure of this degeneration is the most rational, direct, and absolutely certain whereby functional activity of the parts can be restored to normal. Men suffering from this condition will find the cause of their trouble, and the results are absolutely permanent.

Varicocele.
Many men have treated for this trouble and now have been permanently cured. I cure a varicocele in 4 to 6 days, and there is no relapse of the old "weakness" after it is completely cured. My treatment I offer you is unequaled and the results are absolutely permanent.

Stricture.
Cured in 10 to 15 days. I have devoted years of hard work on the formation of urethral obstructions. I restore health and normal conditions, and say "exact cause" treatment removes the necessity of any surgery. Experience with the right treatment will always be the result.

Contracted Diseases.
I cure these ailments more quickly, with less pain, and convenience than any other claimant. The cure your cure is thorough and the formation of Stricture. My "exact cause" treatment prevents the formation of stricture and no recurrence will follow.

DR. MORTON

Fourth and Broadway—312 W. Fourth St.

Acute and Chronic DISEASES OF MEN Successfully Treated

We are thoroughly reliable, our references are of the best. Our large practice is built upon merit. The merit of our methods has been proved by our success.

Call at our entrance, 607 1/2 S. Broadway, and help yourself to one of our large journals. It contains a vast amount of descriptive information which cannot go into general print. Go and get one; the facts are made plain.

Contracted Diseases.
Always become chronic if improperly treated. DR. HARRISON'S long experience has developed a perfect method that are the very best that modern medical science can give. Its success is in that many specialists make futile endeavors to copy his methods. The happy results of his treatment are becoming widely known. Cured patients are sending their friends to us from the fact that they are satisfied of our ability to cure where others fail. Contracted diseases should never be neglected. If you are unfortunate, attend to the trouble at once. Consult an experienced specialist.

Stricture.
We always cure in as short a time as a possible. The nature of the trouble is easily understood; the correct treatment is understood only by educated physicians and surgeons who have had experience in this specialty. No-called specialists who are not physicians, but who are quacks, are not to be trusted. Many a man is ruined by their treatment. The best and none but the best. The public will tell you of our ability.

Varicocele.
It is now an established fact that Dr. Harrison & Co., by their method of treating varicocele, make an absolute GUARANTEE in every case they treat. We will show a dozen cases right here in Los Angeles. If you are unfortunate, attend to the trouble at once. Consult an experienced specialist.

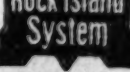

DR. HARRISON

Who Travels in Tourist Cars?

Farmers, business men, mechanics, miners, professional men—everybody but the very rich and the very poor. It's the "people's way," and that they know it is proven by the fact that eighty per cent of the men and women who cross the continent do so in tourist sleepers.

Rock Island tourist cars leave Los Angeles for Chicago daily via El Paso for St. Louis, Tuesday; for Memphis, Thursday. "Via Colorado" cars leave at noon, Tuesday, Friday and Saturday. Call or write.

F. L. MILLER, District Passenger Agent, 237 South Spring Street, Los Angeles.

Two More Armenians Killed
in London Street.

Assassin Then Commits Suicide
to Avoid Capture.

Shot Down Victims from Behind
and Tried to Murder
a Third One.

(BY THE ASSOCIATED PRESS.—P. M.)
LONDON, Nov. 4.—(By Atlantic Cable.) The dramatic murder of Sagouni, president of the Armenian Revolutionary Society in London on the night of October 28, was followed this afternoon by the assassination of two more delegates to the Armenian convention here. The suicide of the assassin, although he has not yet been identified, gives good reason to believe that he also was the slayer of Sagouni. The murders were carried out in the most daring manner, more so than was the assassination of Sagouni. They took place in the early afternoon close to the Armenian headquarters at Peckham Rye. The two victims were shot down from behind at close range. The murderer fired twice at a third member of the group but missed him and then attempted to flee. Seeing that his escape was cut off, he drew another revolver and shot himself with his left hand. It is considered a significant fact that the assassin of Sagouni was also left handed.

The names of the murdered Armenians were Agram Grigorian and Sigran Samelian. Their companion, who escaped assassination was Reuben Gialberian.

WARM DISCUSSION EXPOSES FEAR
OF CHURCH BAPTISM.

Santa Barbara Convention Postpones
Action on Amendment Giving
President Sway Over Officers for One Year.
Annual Address Shows Prosperity.

(BY THE ASSOCIATED PRESS.—P. M.)
SANTA BARBARA, Nov. 4.—The annual convention of the Southern California Baptist Association opened in this city this morning at 10 o'clock, with more than two hundred delegates present from various parts of California.

The session opened with an address of welcome by Rev. J. O. Burroughs, pastor of the local Baptist Church. Rev. A. L. Wadsworth of Monterey responded. The address of President A. P. Griffith of Azusa gave a very encouraging account of the flourishing condition of the denomination in the southern jurisdiction. This was followed by the annual sermon, delivered by Rev. Dr. C. H. Hobart of Pasadena.

At the afternoon session there were addresses by Rev. L. A. Gould of Ocean Park, Rev. George C. Wright of Hueneme, Rev. C. F. Douglas of Pasadena, Rev. A. M. Jones of Los Angeles and Rev. E. T. Sanford of Corona.

A spirited debate arose during the afternoon session, in which the delegates exhibited no small degree of warmth of feeling. The controversy arose over a proposed amendment to the rules, which amendment provided that officers of the association be placed in nomination by the nominating committee, which is appointed by the president of the convention.

In the hot discussion it was represented that such regulations made it possible for the president to name a committee which in turn could nominate the president. This resolved it, as a lay delegate from Los Angeles expressed it, into a matter of "I tickle you and you tickle me." C. J. Bickford of the First Baptist Church of Los Angeles, leader of the so-called reform faction, then offered another amendment calling for nominations to be made by the general body.

After lengthy discussion it was decided to appoint a committee of twenty-one to which, as well as all the other proposed amendments heretofore to be offered will be submitted. This committee was instructed to file its report at the next annual meeting which postpones the decision of the issue for a year.

Many religious workers prominent throughout the West were present at today's sessions.

GOULD AND MORGAN.

How the Son of Jay Secured the Help
of Rockefeller—A Chapter from the
Romance of Money.

(Brooklyn Eagle.) As the head of a mighty trans-continental railway system that has inch by inch fought its way into the front ranks with its bitterest foes, and which gives promise of soon outstripping them all, George J. Gould is today one of the most remarkable and one of the least understood of those picturesque characters in that most thrilling of melodramas—Money.

But Gould is more than picturesque; he is more than dramatic. He is tragic, for he has traveled against each other two great armies of multi-millionaires. A move for supremacy—one way or the other—may lead to such a battle as the world has never known. Soon after George Gould had obtained full charge and was practically dictator of the interests left by his father, he called at the office of J. Pierpont Morgan in regard to the purchase of the New York & Northern Railway by the Manhattan Elevated Road. There were some things on which the two did not agree; some things were made by Morgan; words passed and Gould left the office in anger. In telling the circumstances to a friend, he afterwards said that he would never again enter Morgan's office, and he never has. The friend, however, had known his father for many years, took the young man to one side and said:

"George, you are just beginning your career where your father left it for you to resume. Now, let me give you a bit of advice. If you desire to be successful, as your father was, you should not begin by making powerful business enemies."

Gould said nothing, but he thought of the matter carefully. He had made an enemy of Morgan, and he was too proud to make any concessions to him. The next best thing, therefore, was to gain a powerful friend to offset the powerful enemy and he determined to seek the strongest man financially in the world. At that time John D. Rockefeller was one of the wealthiest stockholders in the Union Pacific, of which the Gould Southwestern Railway system was a direct rival. Gould accordingly, called on Rockefeller. He said frankly that he did not want to run the Missouri Pacific in competition with the Rockefeller interests and he asked the great financier, much after the manner in which a son seeks advice from a father, just how he could conduct his road and its branches in harmony with its former rival. There was something about Gould, something in the confidence that he reposed in Rockefeller that won at once the friendship between the two men grew stronger. The more Rockefeller thought of Gould the more he liked and believed in him. When the split between William and John D. Rockefeller came the business interests of the latter and of Gould were strengthened. Rockefeller's millions began to pour into Gould's propositions. An extensive system of expansion was planned and the Gould road reached out toward the Atlantic and the Pacific.

Gould, realizing the importance of making strong allies and planning for the future, was quick to seize upon a circumstance that brought him and Andrew Carnegie together. Carnegie, who may be said to have changed the railway map of the United States, was engaged in a fight with the Pennsylvania Company, which he thought was charging too much for freight. He had heard of Gould's ambition to bring the Wabash to an Atlantic port and he determined to use him as a wedge against the Pennsylvania people. Gould and Carnegie had several conferences, the result of which was that a contract was entered into by which the Wabash was to receive 25 per cent. annually of the output of the Carnegie Steel Company. In consideration of a railroad being built into Pittsburgh. The United States Steel Corporation of which J. P. Morgan is the head and front, and one of Gould's bitterest enemies, has now that contract to fulfill. This one thing contract is enough to guarantee the financial success of the new line from the start, and the most peculiar feature of the whole matter is that the money comes from the very men who most strenuously opposed the entrance of the road into Pittsburgh.

CURRENT COMMENT.

Boston's Three B's.

Boston is henceforth to be famous for beans, brains and baseball.—(Washington Times.)

A Back Number.

Lou Dillon makes the two-minute horse look like a spavined reminiscence.—(Chicago News.)

A Philadelphia millionaire has been lost, and a reward of \$25,000 has been offered for his capture, awake or asleep.—(Memphis Commercial-Appeal.)

Fall Style in Congress.

If any aged, toothless and bald-headed United States Senator has not yet picked himself out in a new life, he has hastened to fall in line.—(Chicago News.)

The Maryland "Idiot."

The astute Senator Gorman is familiar with the first rule of the political game in the South. "When in doubt, cuss the nigger."—(Milwaukee Sentinel.)

The Addick Style of Opener.

It is announced in the dispatches that Mr. Addicks has reopened his campaign in Delaware, but the amount of the check is not stated.—(Detroit Free Press.)

Popular Entertainment.

The recrudescence of our old and energetic friend, Jimmie, in Haiti, showed that the people of the little island still get a good deal of fun out of an occasional rough house.—(Indianapolis News.)

May Have Other Urgent Business.

There are some reasons to fear that the Hon. Perry S. Heath will find private business more exacting than public duty as secretary of the Republican National Committee.—(New York Herald.)

Kipling's Absent-mindedness.

It is said that Kipling throws away more stuff than he prints, and this moves the Birmingham News to remark that the people of the little island still get a good deal of fun out of an occasional rough house.—(Indianapolis News.)

Hereditary Democrats.

The South would resent the statement that it is a hereditary Democratic. But a large portion of the South would be delighted if the Democrats and Republicans would swap principles.—(Kansas City Journal.)

The Last Resort.

Sam Parks, the crook, who has given the enemies of organized labor a new stock of ammunition, says there is no place on earth for him. But Sam is mistaken, as the penitentiary is on earth.—(Memphis Commercial-Appeal.)

The "Lazzy Bug."

The "Lazzy Bug," in all its passive power, was discussed last night by the New York Microscopical Society, and before Dr. James H. Stebbins, Jr., had finished the paper he had prepared he had thoroughly demonstrated that a man who is too tired to work is not to blame for inactivity.

Dr. Stebbins did not attempt to prove the theory that there was no such thing as the world as genuine laziness, but he did demonstrate, not only by the authorities he quoted, but by lantern slides, that numerous cases of supposed laziness were due to intestinal parasites.

The title of Dr. Stebbins's paper was "The Laziness Disease, Produced by the Ankylostoma." The Ankylostoma bug promotes American supremacy by confining its talents to Europe, while the Uncaria thrives in the United States.

As shown by Dr. Stebbins, the "Laziness Bug" looks very much like a hook. Indeed, its common name is hookworm. Born in the human body it is expelled and reintroduced before it reaches maturity. It never makes a move until it gets its hook into the intestinal lining of its chosen victim. Then it is fixed for life. There is no way to guard against it, as it may be swallowed in water or food or be drawn in through the pores of the skin.

Man has no monopoly on the bug of laziness. There is uncaria canine, the debilitator of dogs; stenocephalus, which creates foxy victims for hunt clubs, and strachiocephalus, which makes sheep so tired they will not even grow wool. All brands were shown by Dr. Stebbins, and so interestingly, that despite the subject, his hearers did not grow weary.—(New York World.)

Secret of Success.

John D. Rockefeller has more than once in addresses to young men and through interviews disclosed the secret of his success, and while frequent repetition is apt to make a matter in-

some, Mr. Rockefeller cannot reiterate his experience too often for the good of the younger generation, and those that are to come after. In an address to a young men's club at Cleveland he said: "Forty-five years ago I walked the streets of this city a poor boy without a job. I wanted work, and I looked earnestly for it. I got a little job, and I worked hard and kept the little job. That is the secret of all my success. I have worked hard all my life, and I have succeeded in building up a great business. No man can take anything out of the world with him, and wealth left to a family beyond a moderate amount is a curse. It is only three generations on the average between shirts and shirtheaves.—(St. Louis Star.)

Poor Ada Rehan.

All unconscious of the fact that her brother, William Graham, was lying dead at her New York home, Miss Ada Rehan bowed and smiled over the foot of the Atlantic City, N. J., on Sunday and the news was carefully kept from her. She acted with her usual brightness and cheerfulness.

"The Taming of the Shrew" on Monday.

"She was in a very nervous state when she went away," said Mrs. Oliver Doud Byron, Miss Rehan's sister, when seen at the latter's home, No. 10, West Ninety-third street, "and we decided to keep the news of my brother's death from her until she had recovered from her usual brightness and cheerfulness."

"This would mean the disbanding of the company and the throwing out of people out of an engagement. That would have been a very unkind thing to do, outside of the serious effect it might have on my sister."

"We hope to keep it from Miss Rehan for a week or more. Perhaps by that time she will be so well recovered from her tour that the shock will not interrupt it. All the members of the company have been warned to avoid the subject."—(New York Herald.)

Locomotives Approved.

It is reported that a German firm has been awarded a contract from Japan for locomotives only after very keen competition with several English firms. Germany, according to a consular report just issued by the State Department from United States Consul Warner, stationed at Leipzig, is under the impression that the order will be given to the Japanese government.

"It has not been so long ago that the firm of Kitson & Co., Leeds, Eng., was given an order for locomotives by the Japanese government simply because this firm was prepared to limit the order within five or six months, while an American firm could not even promise to do so in twice that length of time."

The American Locomotive Company, Broad Exchange building, have shipped about one hundred locomotives in use on the Baldwin Locomotive Works, Philadelphia, and are now about to ship the same to Japan.

In these columns, have been found not only cheaper in their initial cost than the Japanese, but also more reliable in operation, as they consumed less coal and oil than the Japanese locomotives.—(Journal of Commerce.)

BUSINESS.

The local bank clearings yesterday indicated the activity that prevails in business generally by running up to more than a million and a quarter dollars.

Dearish conditions prevailed in wheat and oats at Chicago. Corn ruled firm most of the day. Some slight activity was manifested in stocks at New York, but professionals had the manipulations to themselves. The outgo of currency to the interior continues unabated.

GOMPERS AND THE OPEN SHOP.

Samuel Gompers has had much to say, of late, in attempted defense of the union-labor crusade against the open shop. His attempts at defending this crusade are very weak, because he essays a defense of something which is not susceptible of successful defense upon any rational ground.

What is the open shop, and the principle which it stands for? The principle of the open shop simply means that the employer refuses to make any distinction between union labor and non-union labor; that he treats all employees alike, whether they belong to the union or not; that he will neither give nor refuse employment to a man solely because he does not belong to a union, nor solely because he does belong to a union. In brief, that he will employ men upon their merits as workmen, without prejudice, and solely upon a business basis—which is the correct basis for the relations between employer and employee.

Is there anything wrong in this? Have reasonable men any just cause for complaint because of this attitude on the part of employers? Is not this proposition—to treat all workmen alike—in accord with the oft-cited maxim of "equal rights to all, special privileges to none?"

The trouble is that, although Gompers and his followers are exceedingly free to quote this and other fair-sounding maxims, they are not willing that they shall be applied in practice to any class of workmen but such as belong to their organizations.

The demand, in effect, equal rights for themselves, and special privileges for nobody but themselves.

The Gompers brand of logic is as slippery and sloopery as the Gompers individual—if such a thing be possible. "The public knows something of the attempt of plutocracy to misrepresent President Roosevelt's attitude toward unionism," observes the Gompers individual, in one of his recent tirades. "This order in the Miller case," he continues, "which had no application to any service or establishment other than governmental, was tortured into something like a general principle or rule of action for all employers. This miserable attempt has failed, and even capitalist papers have been compelled to point out to their readers that under no circumstances can the order or its influence be construed to apply to private business."

Exactly. The public knows, also, something of the attempt of Gompers and his gang of industrial freebooters, not only to misrepresent the President, but to cajole or coerce him into receding from his just position in the Miller case. The public also knows something of the abject failure of this attempt against the Chief Executive, and of the cringing, wheedling manner in which the boycotting game, which started out all bravado, accepted the desired rebuke which the President so admirably administered. The public has also become aware that the wild and woolly campaign which organized unionism started against the President with so much "clat" a few weeks ago has "fizzled out" as completely as the average Los Angeles strike.

Nobody has ever claimed or supposed that the President's order in the Miller case had any other application than to the Government Printing Office and other government departments. The President has no authority, and has never had any authority, to give orders of any kind "to apply to private business." But it must be clear to any person of understanding that a rule of conduct which is advantageous and equitable as applied to the public business, is by no means a bad rule to be applied to the conduct of private business.

The open-shop proposition implies, says Gompers, "that organized labor must give up, not a special privilege improperly held, but the common and deserved right to refuse to work with non-union men. Why should labor give up this legal and moral right? The right is of the same class and importance as the right to quit work is fundamental. To give it up would be to restore slavery and make slaves of the most skilled and competent of American workmen." Here is more of Gompers's slippery-sloperry logic (by

courtesy so called.) Organized labor, in demanding that employers shall establish the closed shop, demands in effect that the employers shall discriminate against all men not belonging to unions, shall refuse to give such men employment, shall virtually establish a blacklist against them, and shall thus deny them the right to earn a living by labor. The open-shop principle does not require any man, unionist or non-unionist, to give up any right which belongs to him properly.

Union men may refuse to work with non-union men if they see fit. Nobody has sought or is seeking to deprive them of this acknowledged right. But they go further than demanding merely the free exercise of this right. They demand that, as a condition of their employment, the employer shall use the power of his position, as such, to deprive non-union men of their indefeasible right to work for whom they please and on such terms as can be agreed upon between them and their employer, without dictation from any person or aggregation of persons. There is no complaint in any quarter so long as unionists confine themselves to the exercise of their conceded rights, moral and legal. It is only when they insist upon interfering with the guaranteed rights of others that there is objection. Objections based upon this ground are not to be ignored. They will be heard, and heard to some purpose.

RESULTS OF THE ELECTIONS.

All things considered, Republicans have ample ground for satisfaction over the results of the elections held on Tuesday. The most significant of these results is that of the election in Ohio, and there the Republican majority is one of the largest ever known in the history of the State. The plurality of Herrick, the Republican candidate for Governor, over Johnson, the Democratic candidate, is in the neighborhood of 135,000. This is a greater victory than even the most sanguine Republican expected. The Republican membership in the Legislature is greatly increased, giving them a majority on joint ballot of 95, or thereabouts, out of a total vote of 143. Ohio, not so very far in the past, was classed as an "uncertain" State. It can hardly be so considered now, if the verdict of Tuesday's election is any criterion.

In New York City, Tammany came to the front with a plurality for George McClellan, for Mayor, of over 60,000—which is somewhat less than the normal Democratic majority in the normal Gotham where the "Tiger" has his lair. New York City is subject to periodical spasms of political reform, but the access of virtue seldom outlasts two consecutive elections. The case is somewhat like that of the drunkard who makes occasional efforts at reformation, but invariably relapses to his cups. New York has "taken its pledge" on numerous occasions, but has as often fallen from grace, after the recession of the zeal of each new conversion. In the present instance, there is some hope that the lapse will not be so serious as it has been on other occasions. Mr. McClellan has a reputation—which is, doubtless, fully deserved—for personal uprightness. If his individual integrity can survive an election to the Mayorship of Greater New York, under Tammany auspices, he may well be considered a phenomenon among men, and a paragon of political virtue.

The Republicans won gratifying successes in most of the other States which held elections on Tuesday. In Massachusetts, Gov. Bates is re-elected by about 25,000 majority. Nebraska gives the Republican State ticket 10,000 plurality. In New Jersey, the Legislature has a safe Republican majority on joint ballot. Pennsylvania, the old reliable, rolls up its customary Republican majority of 225,000 or more. Iowa gives the usual good account of herself with upward of 50,000 plurality for the State ticket. Kentucky reelects Beckham Governor by methods peculiarly Kentuckian. Democrats win in Maryland by the same token.

One of the startling results of the election is the announcement that old Mississippi has gone Democratic. This is perhaps the most disheartening phase of the struggle, from the Republican standpoint. If we had carried Mississippi, we should have been content. But the Dutch have taken Holland, and we must try to be, if not content, as nearly so as possible under the circumstances.

In San Francisco, Eugene E. Schmitz is re-elected Mayor by over 6,000 plurality. This result was not unexpected. Conditions in San Francisco, political and social, are peculiar. No large city in the country is more completely dominated by trade-unionism than is San Francisco. Schmitz had the united support of organized unionism, while the opposition to unionism and its methods

was divided—unfortunately so for the welfare of the city. Schmitz polled 7,000 votes less than a majority of the vote cast, and if the opposition to him had been united he would easily have been defeated. The total vote for Lane, the Democratic candidate for Mayor, was only 12,528, or considerably less than half of the total vote polled by Schmitz. In these ominous figures, Franklin K. Lane—if he has foresight commensurate with the hindsight thus rather ungraciously thrust upon him—can easily see his futility as a political possibility of any kind.

"THE GIFT OF GAB."

At a feast recently given in his honor Admiral Dewey was called upon to reply to a toast, and this is what he is reported to have said: "My friends, I hope you will excuse me. I cannot make a speech. I wish I could. I would rather be an orator than the winner of a dozen battles like Manila Bay." With that he collapsed into his chair, flushed in the face and plainly embarrassed.

The qualities that distinguish our great naval hero as a first-class fighting man, his coolness that failed not under the enemy's guns, his nerve and bravery—all these deserted him when he rose to address an audience. Among the gifts bestowed upon him by Nature there was one lacking—"the gift of gab." And it appears that it is this gift that he longest most to possess. Doubtless it is no new-born longing, either. It may be that oftentimes, he heard the sailors, in the twilight of the dog watches, sing:

"Then up spoke the captain of our gallant ship,
And a well-spoken captain was he—

Here we have a sailor who, though he may have had no other accomplishments, was "well-spoken." He was an orator. And so greatly was this gift held in admiration, that a poet made a song about the captain which sailors sing to this day.

Perhaps we are expected to take with a little salt Dewey's statement about wrapping his reputation as an admiral for that of an orator, and yet, he might have been serious about it without any reflection on his tastes. The world loves the music of a silver tongue. The names of Demosthenes, of Cicero, Paul of Tarsus, Patrick Henry, Daniel Webster and Ingersoll are not forgotten, nor are they likely to be. While the human heart leaps with joy or sinks with sorrow the orator's forum will be preserved and his power will endure.

Washington is now filling up with Congressmen who are trying to square their heads with the Interior Department before the regular business commences of investigating what in Sam Hill those same Congressmen have been doing about getting away with timber lands through fraudulent entries on the part of favored constituents. Washington promises to be filled with floor walkers next winter; and it is hard enough for some of our men to crowd themselves into jail, if they don't watch out. Roosevelt is still in the saddle and Uncle Sam is about to make another four-year contract with him. He is great for riding a range.

With pugilistic contests eliminated in Los Angeles this would be a great town if we had lots of shade trees, a union railway station, two hundred miles of asphalt streets and a fine postoffice building in lieu of that dizzy wreck on Main street which continues to rear its awful form thereabouts to the consternation of the multitude. Let the city fathers contract with a good enough Morgan or a machine to work all right in Uncle Sam's printer. Our Uncle may be deliberate in his movements, but he gets there after a while. Let the gaiters walking delegates win a few winks.

There seems to be a sort of feeling in Washington, at last, that the public printing is costing too much and that a machine that will cast type lines in private printing establishments ought to be a good enough Morgan or a machine to work all right in Uncle Sam's printer. Our Uncle may be deliberate in his movements, but he gets there after a while. Let the gaiters walking delegates win a few winks.

San Pedro will soon be restored to the water map of our common country, as well as maintaining its position on the land map of the world. Ships which have for a long time past been giving that port the go-by will pause to enter in the grand free-for-all of the donkey engine will hereafter be heard all along shore, to the joy of all hands. Everything comes to him who waits and hustles.

If Los Angeles owned her own trolley system and her gas and electric light works, in addition to the recently-acquired water works, she would be the greatest money-maker of a town on the face of the earth. It appears quite clear that we have been giving away a good many valuable things for nothing. The nation has been giving to other places in the good summertime later on, in order to cool off.

Prepare to give thanks, for we have much to be thankful for all over this broad domain of Uncle Sam, even though Fortune has not been as kind in each individual case as she might have been. The nation has been gloriously blessed, as a whole, and if we cannot be wholly thankful, let us be as thankful as we can.

We anticipate something being said at Washington next winter regarding the construction of a canal between the Atlantic and Pacific Oceans; but that is no more than a waterway is going to be constructed with the recollection of the youngest inhabitant.

Chicago's gruffers have not been apprehended as yet, but their feet still stick out of the windows of the city hall, same as before. What is the no more with less in hand the wheels to do about it? We pause for a report.

The winter crop of tourists is now coming in along with the orange crop.

THE TIGER AGAIN IN CONTROL.

Tammany: My but that tastes like the good old times!

and both look—pleasing, no end, to the Southern Californian. We trust their both crops will not be treated alike—thoroughly plucked.

The chrysanthemum is once more making gay the wild and woolly West, together with certain portions of less attractive regions of our common country. The chrysanthemum may be wild, like the West, but it is woolly all right.

Should the new radium mine prove to be a good producer it is believed that John Rockefeller, by saving up, will soon be able to buy as much as an ounce of the stuff without going hungry for the remainder of his natural life.

And now a radium mine has been discovered in this country. Just like those Yanks; whenever there is anything wanted they take to the brush and come back with a location notice tucked in their belts.

The Thanksgiving turkey is finding his turn to wonder where in Sam Hill a man can get so much popularity who grinds out such proclamations as Roosevelt recently launched from the White House.

American trolley roads earned more than \$102,000,000, and yet some of them decline to sprinkle. How sharper than a serpent's tooth it is to have a thankful crowd of motorists buzzing around the premises.

Gloves are worn in New York this fall unbuttoned and turned down at the wrist. As for New York's politics it is unbuttoned to the point of subject nakedness; and she ought to be ashamed of herself.

The promoter of a \$40,000,000 corporation to build the railway Los Angeles and the nearest dealer in liquidation a hash bill of \$195. Well, they cannot all be Schwabs.

Should Canada come into the American Union she will have to agree not to "holier" when there is an adverse decision, or we won't have her for our steady company.

With our late pugilists working or walking on the railways Los Angeles will look as if she had been taking something that works while she sleeps.

The Tammany tiger is again licking his chops and preparing to pick New York City to the bone. And it will enter the grand free-for-all of the donkey engine will hereafter be heard all along shore, to the joy of all hands. Everything comes to him who waits and hustles.

Purple is all the rage in New York. The Purple She, however, as she appears on FIF avenue doesn't drag along that thoroughfare a purple purp.

Parson Dowle has indorsed Roosevelt. But it is believed that Roosevelt is strong enough before the people to overcome even that handicap.

Speaking about a rock pile for the entertainment of hobos, and "sich," what about it, anyway?

The annexation of British Columbia has been suggested. Do we hear a second from B. C.?

The Alaskan boundary decision still sticks; and it also sticks in Canada's craw.

Passing of "Gee, Whoa, Haw."

"One thing in the management of horses in this town that surprises me is the elimination of 'Gee, whoa, haw,' from the drivers' vocabulary," said the man who was brought up in the country.

"To an capacity or another I have been brought in close connection with a number of teamsters and their horses, and I can assure you that the old-fashioned horses talk with which I was familiar up State is almost unknown here."

"In its stead the drivers say: 'Hi there,' and 'Get along' and shout numerous other directions that I do not care to mention. The animals seem to understand these strenuous remarks and obey fairly well, but I can't help wondering why the owners have abandoned the 'Gee, whoa, haw,' of my boyhood days." (Philadelphia Ledger.)

SINGLE SHOTS.

A drunken poet was in jail at San Francisco this week. However, he was let off with a light fine for common drunkenness.

The agriculturists of Santa Ana are happy to have a comparatively small thing. It is the peanut. They are harvesting them there now, and the yield is good.

It is reported that a Hollister young man, who is yet wisely concealing his identity from the authorities, will shortly commence the publication of a weekly newspaper at San Juan.

The lone Valley Echo announces, editorially, that on account of the congeniality of the winter season, fire-eater will pass over the counter as full of life and vigor as ever.

Willows has a citizen with the classical cognomen of Thomas Ajax. However, he is not the nearest dealer in liquidation a hash bill of \$195. Well, they cannot all be Schwabs.

Cupid appears to be very fatal in his fall campaign in Sacramento. A young couple of that place were introduced the other day, and after six brief but sultry hours of courtship, went out and looked the nearest dealer in liquidation a hash bill of \$195. Well, they cannot all be Schwabs.

The standard for terpsichorean artists in Alameda is very high. Clusilius attended a ball there recently and entered the grand free-for-all of the donkey engine will hereafter be heard all along shore, to the joy of all hands. Everything comes to him who waits and hustles.

A Hongkong man continued to look upon the wine while it was red, until he acquired one of the largest and most active collections of uncatalogued insects and serpentine wonders that has been seen in those parts for years. The man placed them in the County House, where he continued to give daily exhibitions and twice-a-week markets with his choice menagerie, to crowded houses. At present, however, his views have undergone a considerable change and he is looking at things in a more practical light.

Lifting Chicago's Tracks.

Few people realize the enormous work which is being done in Chicago elevating the railroad tracks and abolishing grade crossings. Fourteen thousand cubic yards of sand from the dunes of Indiana are being brought into the city every day for this purpose, the plan being to lay the tracks on sand which is held in place by retaining walls. In ten years, since the movement to elevate the tracks first began, the number of lives lost per annum has fallen 50 per cent. Seventy-five miles of main line and 425 miles of other tracks have been elevated, and 350 grade crossings done away with, while ordinances are now in force which will raise fifty miles of main line, 250 miles of other tracks, and away with 140 more grade crossings. All this has been done by the railways at a cost of \$25,000,000, and the work has been completed the total cost will have been \$41,000,000, while the total cost to the city has been \$6000 a year.—(Pittsburgh Press.)

Womanlike.

Wild Man: Why are you laughing?
Glass Eater: Can't help it. You know the fat lady married the midget.

Wild Man: Yes?
Glass Eater: Well, when he talked back to her she said: "You mouster!"

—(Chicago News)

THE PLAYHOUSES.

MASON OPERAHOUSE. It's a pity that the composer and librettist of "The Isle of Champagne" couldn't have pinched themselves awake when they were writing this piece. They dreamed out some pretty music, but the action is so slow, and the sinuous weavings of the anemic plot so utterly lifeless that it nearly kills all interest in the performance.

As far as acting and singing are concerned, the Olympia company increased its growing reputation last night, before an audience which would make liquid air look warm.

As before, petite Letitia Kendall was delicious to look upon, and daintily clever in action and speech. Carl Haydn, who is the best light opera tenor who has visited town since the Bostonians were here, had a chance, and improved it. There are faults in his tone production, but his effects in the main are good. Miss Drake, the soprano, also does highly effective singing. John E. Young, the comedian, is funny. This is saying a whole lot, if one applies it to the average comedian.

The regular first night plays for a chance to let the Olympia company throw itself on a real comic opera. There is abundance of tone, and surprising strength and depth in massed choral effects. The evening "Olivette" will be presented.

"THE RESULT SIGNIFICANT."

The Boycott on "The Times" and Its Effect.

(From the Tucson (Ariz.) Star.)

The fund raised by the International Typographical Union to fight non-union offices amounts to \$30,000 a year. This sum is collected from members of the union by monthly assessments. The principal fight for years has been waged against the Los Angeles Times, which is an open printing establishment. Notwithstanding the large sums of money contributed to fight the Times, it has steadily forged ahead until today it is the leading journal of the Pacific Coast. It has the largest advertising patronage of any journal published in the United States, and has but one rival in the world. This is the record credited to the Times by the largest advertising agency in the United States. This is not all. So rapid has been the growth of the business of the Times that it is compelled to double the rooming of its publishing establishment; it is also a large job printing house, until it is doing a mammoth printing business in addition to making the Times. Such a record is strikingly significant when it is known that many of the dollars are annually contributed by printers of the country to cripple the growth, income and prosperity of the Times. Yes! The result of the fight against the Los Angeles Times is most significant.

OCTOBER CIRCULATION OF THE TIMES.

The following is the sworn statement of circulation of the Times for October, 1903:

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, ss.

I, Harry Chandler, Assistant General Manager of the Los Angeles Times, do solemnly swear that the actual number of copies of that paper printed and sold for each day of October, 1903, as shown by the office records, is as follows:

1.....	24,350	11.....	24,350
2.....	24,375	12.....	24,350

JEWELERS AND SILVERSMITHS, 245 S. Spring St.

Why We Advertise.

1. We want you to know that we write, design and place advertisements—to call and tell you personally at rate of 1 cent every ten minutes, paid only once a possible 50 of you in a day—this way we talk to 33,000 every day. Ever think of that?

2. The tax for Los Angeles outside of the city limits is \$1.50 per \$100 valuation of property, in addition to the mill levy, which in the case of Los Angeles is \$2.50 per \$100 for county taxes. The tax for the city of Los Angeles is \$1.50 per \$100 for city taxes, and \$1.50 per \$100 for county taxes. To keep up his city tax, a property owner must pay \$3.00 per \$100 for city taxes, and \$1.50 per \$100 for county taxes. In addition to the higher rate which the city of Los Angeles pays, the city of Los Angeles also pays \$1.50 per \$100 for city taxes, and \$1.50 per \$100 for county taxes. In addition to the higher rate which the city of Los Angeles pays, the city of Los Angeles also pays \$1.50 per \$100 for city taxes, and \$1.50 per \$100 for county taxes.

3. It is also conceded that the city of Los Angeles is the most of the Northern counties. Angeles taxpayer has this property, that is, the city of Los Angeles, and the city of Los Angeles is the most of the Northern counties. Angeles taxpayer has this property, that is, the city of Los Angeles, and the city of Los Angeles is the most of the Northern counties.

THURSDAY, NOVEMBER 5, 1903.

BILLIONAIRES VERY SCARCE.

Only One and a Half of Them
in California.

Whole State Assessed for Little
More Than that.

Over One-tenth of Property Val-
ues of the State in Los
Angeles County.

In this age of multi-millionaires, and a few individuals like John D. Rockefeller even reaching out to be billionaires, it is interesting to figure out by comparison just how much of the common wealth a real billionaire would represent. How many billionaires, for instance, would the tax-payers of the great State of California equal if all their holdings were consolidated and raffled off in chunks of \$1,000,000 each?

Well, just about one billionaire and a half would be created by such a process, according to the latest report of the State Controller, Hon. E. P. Colgan. All the people of California, including the railroad and other corporations, and people living outside of the state, but owning property within its borders, are paying taxes on an assessed valuation of just a trifle over a billion—and a half of dollars. So if John D., or any other of the bloated monopolists, were really to become a billionaire, it would be easy for him to buy up the entire Golden State the second in size in the Union and one of the richest.

Controller Colgan has just issued a tabulated statement of the values of property in, and indebtedness of, each county in the State for the year 1902, together with the rate of taxation in the several counties. The total assessed value of real estate in all the counties of the State, according to this table is \$249,490,266; value of improvements on real estate, \$252,535,409; value of personal property, \$254,484,904; money and solvent credits, \$45,900,889; total value of property returned by auditors, \$1,114,415,466; value of railroads as assessed by the State Board of Equalization, \$6,187,788; making a grand total of all taxable property in the State of \$1,586,933,228.

SAN FRANCISCO RICHEST.
San Francisco leads all the other counties in the amount of taxable property within its borders. San Francisco real estate is assessed at \$81,950,000; improvements, \$13,155,498; personal property, \$12,147,473; money and solvent credits, \$33,595,069; total, \$148,858,040; plus \$13,155,498 value of railroads within the county, making a grand total of \$162,013,538; which is a little less than 10 per cent. of the assessed valuation of the entire State.

Los Angeles county is the second county in the State in taxable wealth. Its real estate is assessed at \$64,401,189; improvements, \$40,135,600; personal property, \$27,500,000; money, \$84,733,000; total, \$136,870,789; plus \$13,155,498 value of railroads within the county, making a grand total of \$150,026,287.

Alpine county has the smallest assessed value of the fifty-seven counties of the State, the total being only \$423,000. It is the only county that has a valuation of less than a million.

The eight counties of Southern California, exclusive of Los Angeles, are assessed as follows: Kern, \$24,060,871; San Bernardino, \$21,292,228; San Diego, \$20,507,594; Santa Barbara, \$15,540,578; Riverside, \$14,373,296; San Luis Obispo, \$13,690,235; Orange, \$13,512,566; Ventura, \$11,171,518.

Los Angeles county pays taxes on nearly as much property as the counties of San Diego, Riverside, Orange, San Bernardino, Santa Barbara, San Luis Obispo, Monterey, Kings and Inyo combined.

LOWEST TAX RATE.
Yolo county with an assessment of \$17,648,495, has the lowest tax rate outside of incorporated cities and towns—\$1.45 per \$100. Mariposa county, with an assessment of \$2,270,146, has the highest tax rate—\$2.70 per \$100.

The tax rate for Los Angeles county outside of incorporated municipalities is \$1.50 per \$100 valuation, and \$1.20 in cities. In addition to the municipal tax levy, which in the case of Los Angeles is \$1.45, making a total of \$2.95 per \$100 for city and county taxes. The San Francisco tax-payer pays only \$1.67 per \$100, to keep up his city and county government, and to help to support the State government. The State tax levy of 161 cents being included in the county tax levy. In addition to the higher rate which the Angeleno pays, it is also conceded that the assessments in Los Angeles county are higher in proportion to the real value of the property, than in San Francisco and most of the Northern counties. The Los Angeles taxpayer has this to console him however: It is worth more to live here than anywhere else this side of the gates of paradise.

BUILDING A PALACE.
Construction of California Club's Fine Home Begun on Lively Scale and to be Rushed.

Actual work has at last been commenced on the palatial home of the California Club, Fifth and Hill streets. Months ago the massive cement foundation was completed by Contractor Leachman, the formal acceptance of the job being as long since as August 2. The delay has been caused by the lack of steel, which, furnished by the Baker Iron Works, could not be obtained from the Pennsylvania works of the Cambria company.

Now that things are started, the building will be rushed to completion as rapidly as possible. Architect John Parkinson believing that six or seven months will suffice to get it ready for occupancy. In case other materials are delayed, which seems improbable now, the construction will of course take longer.

Plans are being received this week for the general contractors, and the Baker firm had a force at work yesterday hauling steel to the site, and placing the heavy metal columns based on the huge concrete pillars.

The building will have a great deal of ornamental stone work in its exterior walls, and the stone contractor has been let to H. Clement & Co. Chatsworth. In cost \$25,000. There is a time limit of sixty-five days placed upon the furnishing of the stone, dating from the

date when the building will receive the work.
Slight changes have been made in the plans of the club since the original draft, and these though small, warrant the assertion that the California Club will possess one of the finest homes in this part of the country.
As now projected, the building will be a five-story structure of marble, stone and pressed brick, with walls of sufficient strength to warrant the addition of two more stories.
Inside furnishings will be of the finest. The first floor will contain the reception, card and billiard rooms; a second, library, ladies apartments and a dining-room; the third, the main dining-room; fourth and fifth, bedrooms. A roof garden will be the feature of the top of the building.

SPORTS PAGE

ROAD WARMER KILLS BEAR.

Noted Racer's Rear Battery Trained on Brum.

Ralph Vernon's Popgun Failed to do What He's Did.

Shutout of the Senators—Cross-Country Championship Run. Jeff's Color Line.

(BY DIRECT WIRE TO THE TIMES)

UKIAH, Nov. 4.—[Exclusive Dispatch.] Road Warmer, the well-known race horse, killed a bear on Sanhedrin Hill yesterday. Road Warmer was one of a string of racers that Ralph Vernon was taking to Covelo for the winter. Vernon was riding Road Warmer, and when they were about half the way up Sanhedrin a young black bear was spotted near the road. Vernon, who had a small caliber pistol, took a shot at the animal. The bullet, of course, only wounded him, and he charged his assailant. Vernon was depending on the well-known speed of the racer for safety, but for the first time Road Warmer refused to start. The bear kept coming, and Vernon thought his time had arrived, and he was about to make his escape on foot, the other horses having stampeded.

When the bear was within reach the horse squared around and a battle royal commenced, the horse using his hoofs to good advantage. When Vernon managed to get the horse away the bear was lying in a popular resort and the horse was uninjured. The bear weighed 125 pounds.

MAW LOST ANOTHER BY LOCAL BATTING.

CRAVATH GOT TWO HOME RUNS IN THREE HITS.

Fielding of New Los Angeles Players Was Very Pleasant—Cooper Fell Down in Seventh Inning and Was Beaten to a Finish.

Los Angeles, 7; Oakland, 2.

"Hully Chee! Cravath, two home runs an' one amscrut too. What a yuh 'n' 'at!"

That's what Moudy Doughnuts said last night as he stood and looked at the score board in a popular waiting place at the twilight Picture House and the question whether the "perfect" had

discerned that both teams were out for blood and second place. As a pitcher's honor was about even, although there was perhaps a trifle more polish on the delivery of Hughes, but just the same his team mates could not hit Keefe when hits were needed, and the Senators gained a victory.

TODAY'S GAME.
 This is to be a ladies' day at Chutes Park and Hall will pitch for Los Angeles. Mockman or Graham will probably go in for Oakland. Play will begin at 2:30 o'clock.

PITCHERS' WORK GOOD.
 NO SCORING AFTER SECOND.

(BY THE ASSOCIATED PRESS.—P. 1.)
 SAN FRANCISCO, Nov. 4.—The home team took kindly to McFarlan's pitching in the first two innings today and half a dozen hits gave four runs. In the opening innings for Portland a combination netted three tallies. Neither side scored after the second inning, both pitchers doing effective work and receiving good support.

committed a crime in arresting a hold-up man, while the revolution in Panama would have him arrested, didn't sell as many papers for him as Cravath's two home runs would.

"Go home to supper! Well I guess you're bugs. Not after that. 'Hully Chee! Cravath, two home runs an' one amscrut too. What a yuh 'n' 'at!"

That's what Moudy Doughnuts said last night as he stood and looked at the score board in a popular waiting place at the twilight Picture House and the question whether the "perfect" had

officials that served at Worth. Secretary Ed Jasper was secured, but Judges Morse and Richardson were not willing to let the prize for inducements offered. Los Angeles is without a judge up to date. An effort was made to secure Capt. James H. Red, but the former official declined to renew his activities in the prize. J. Ed Col of New York has been advanced as one of the associates, but the deciding judge is still in doubt. Secretary Jasper is still in Chicago.

JEFF'S COLOR LINE.
 SPORTS WON'T ALLOW IT.

(BY DIRECT WIRE TO THE TIMES.)
 SAN FRANCISCO, Nov. 4.—[Exclusive Dispatch.] Sports here are beginning to say that Jeffries must drop the color line, or else give up the championship. They say that MacVey borne out his promise and whipped Jack Johnson, then Jeffries would have been forced to give him a chance. But McVey proved to be a "dub," and Johnson outpointed him so easily and knocked the big fellow around so handily that his (Johnson's) championship stock has advanced.

The slim, but powerful negro is eager to meet Jeffries and is willing to make any division of the purse that will suit Jim Johnson's admirers as the fine work of all the players, only one error being made and that by Doc Mockman, who made a wild throw to first base. The playing of Catcher Eager and Shortstop Raymond of the locals was watched with a great deal of interest, for it was their first appearance. Both did pretty work and held their positions perfectly. Raymond made several sensational stops and although Eager made one or two wild throws to second base, there was no sign of an error.

Dolly Gray and Cooper were the pitchers and both pitched good games until the seventh inning of Cooper, the best of Dolly until that inning and then the Looles fell on him "all to once." The six runs were easily accounted for by Cravath's home run, a double, four singles, a pass, Mockman's error, two played balls by Gorton and a run home after a catch

discerned that both teams were out for blood and second place. As a pitcher's honor was about even, although there was perhaps a trifle more polish on the delivery of Hughes, but just the same his team mates could not hit Keefe when hits were needed, and the Senators gained a victory.

PITCHERS' WORK GOOD.
 NO SCORING AFTER SECOND.

(BY THE ASSOCIATED PRESS.—P. 1.)
 SAN FRANCISCO, Nov. 4.—The home team took kindly to McFarlan's pitching in the first two innings today and half a dozen hits gave four runs. In the opening innings for Portland a combination netted three tallies. Neither side scored after the second inning, both pitchers doing effective work and receiving good support.

THE TARIFF PROBLEM.

Englishmen and Producers Taking it Seriously.

Outlook for Investors in Central America Not Bright.

Argentina's Foreign Trade Growing—The Silk Industry in France.

(SPECIAL CORRESPONDENCE OF THE TIMES)

WASHINGTON, Oct. 28.—Englishmen and producers are taking the Chamberlain tariff campaign very seriously, and the belief among these people is apparently very general that England will very shortly depart from her free-trade policy. This is not merely a matter of opinion, for the English importers have already begun to increase their stocks and lay in large supplies of goods upon which Mr. Chamberlain proposes there shall be a 10 per cent. import duty in the future. This interesting news is not contained in any of the reports from the American representatives abroad, but is the burden of much private correspondence between England and the United States just at this time.

It has always been the custom in the United States prior to the enactment of a new tariff law for industries likely to be affected thereby to discount the future and to load or unload their stock in trade as might seem to be the best advantage under the operations of any proposed law. The Englishmen have evidently learned the game, and are taking time by the forelock. A 10 per cent. import duty does not sound large, but upon the heavier, cheaper class of goods which are imported into England in enormous quantities this 10 per cent. would increase the English sales and consequently decrease imports of foreign goods.

It is believed, however, that this movement is only in its inception. In the first place, it is not absolutely determined that England will adopt a protective tariff. Some of the English manufacturers go so far as to say, however, in their letters to American representatives, agents, customers or supply men that they think the Chamberlain policy will triumph, and that within nine months, meaning, of course, at the general election which is expected to take place in England next fall. They have already begun to investigate the market and plan to make a general import duty, a most practical and convincing bit of evidence as to the change which has taken place in public opinion in England within a very short time.

Representatives of Mr. Chamberlain are now in the United States securing data as to the cost of production, wages and home markets under a protective policy, this data to be used in the English campaign now being carried on, and which will increase in intensity as the time for an election approaches. The protectionists of the United States have, in the past, gone to England for their illustrations of the evil effects of free trade. The tables are now turned, and the protectionists of England are coming to the United States to secure illustrations of the benefits of the policy which they are advocating.

Should it become generally admitted that England will adopt a general import duty, it must logically follow that the purchases abroad made by the English merchants will be enormous in anticipation of a raise in prices, and this cannot help but have a most marked and beneficial effect upon the American export trade in every line of goods and materials. What will come next, for there would undoubtedly be a reaction which will cause difficulties in United States export lines of goods, and a normal condition of affairs will be reached until commerce has thoroughly readjusted itself.

This question of an English import duty is a most important matter, and there is no international matter possessing such keen interest or high stakes as the tariff. It has become the political struggle now in progress in Great Britain between the conservative upholders of the free trade policy and those who are ready to abandon every precedent and convention in the attempt to hold the lead in the international race for commercial supremacy.

For half a century Americans have been engaged in more or less disastrous attempts to develop the agricultural resources of Central America. The American Consul seems to think this plan is in every way practical, and says that it has met with the enthusiastic approval of the German exporters.

SAN DIEGO.

SOUTH SHORE BRIEFINGS.
 SAN DIEGO, Nov. 4.—Another rural delivery mail route is to be established for the Nestor section, with the San Diego city office as headquarters. R. Frederick Blankenship, a Philadelphian business man, was married last evening to Kathryn D. Carter, daughter of Mr. and Mrs. F. W. Carter, who has been in the northern part of the State.

Dr. R. M. Powers of this city has been given the degree of Commander of the Court of Honor by the Supreme Council, thirty-third degree, Ancient and Scottish Rite, F. and A. M., while the thirty-third and last degree has been conferred upon James MacMullen, also, of this city.

The United States collector, Nero, under orders to proceed to Panama, steamed out of the bay at 6 o'clock this morning to quarantine, where she will

Knitting Stockings on the "L."

An aged woman industriously knitting a stocking as she was being rushed down town in a West Side elevated train yesterday, was a sight that tickled the eyes of blasé New Yorkers who haven't seen a knitted stocking, even in a store, for the last twenty years. She was an inconspicuous figure, but she attracted attention as much as a case as though sitting in her rocking chair on the back porch of the old farmhouse, where she doubtless puts in most of her time. And the boys' will have warm feet this winter.—New York Press.

A sensational story has been current yesterday to the effect that as the prize fighting game had been temporarily killed in this city, the scene of operations would be transferred to San Bernardino and that hereafter all big fights in Southern California might be pulled off in that city. Manager McCarey of the defunct Century Athletic Club knocked out this story in the first round yesterday by declaring emphatically that he had never had any negotiations with San Bernardino in reference to the transfer of the prize fighting game to that city. He pointed out that the Century Athletic Club had been in existence for many years and that it was a well-known fact that the club had never had any negotiations with San Bernardino in reference to the transfer of the prize fighting game to that city. He pointed out that the Century Athletic Club had been in existence for many years and that it was a well-known fact that the club had never had any negotiations with San Bernardino in reference to the transfer of the prize fighting game to that city.

SHUTOUT FOR SEATTLE.
 BOBBY KEEFE VS. HUGHES.
 (BY THE ASSOCIATED PRESS.—P. 1.)
 SACRAMENTO, Nov. 4.—Accorded perfect support by the men behind him, Bobby Keefe, the youngest pitcher in the California League, went up against the veteran Jay Hughes today and the result was a shutout for the Seattle team. The game was one of the best roundly played of the season. It was a game in which it was easily to be

discerned that both teams were out for blood and second place. As a pitcher's honor was about even, although there was perhaps a trifle more polish on the delivery of Hughes, but just the same his team mates could not hit Keefe when hits were needed, and the Senators gained a victory.

ROBBED BY A SERVANT.

Colored Woman Arrested for Theft

of Valuable Jewelry. Theft Improbable

Story of Having Given it Away.

For several days the detectives have

been looking for the person who

robbed the residence of S. F. Judy,

North Tabor street, of jewelry

valued at \$300. Yesterday Jessie Scott,

colored, who has been a domestic at

the house, was seen wearing one of

the pieces of stolen jewelry. She was

once arrested and confessed her guilt.

When asked what she had done with

the rest of her booty she stated that

she had given it to a young white man

who she met at Central Park and

whose name she did not know. She

said she had made an appointment to

meet him there later and receive the

proceeds of the sale of the jewelry, but

she never met him and has been keep-

ing the pieces of jewelry. The detec-

tives believe that the woman is ly-

ing and that she is ultimately con-

fessing the hiding place of the valu-

ables.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Unimproved Acreage.

D. P. N. Little has purchased of Alfred Solano and others, through the McGavin & Bronson Company, thirty-three acres, unimproved, just south of Edna street, west of Elysian Park, and north of Butler street; consideration, \$15,000.

Murphy's Prayer Meeting.

The Francis Murphy prayer meeting, which for the past year has been held each Thursday evening, at residences in different parts of the city, has outgrown the facilities offered by such a plan. Beginning this evening it will be held in the Art Room in Blanchard Hall, and a general invitation is extended. Take the elevator.

Blocks and Flats.

W. R. Phelps has secured the contract to erect a three-story brick business building for Newell Mathews, at Nos. 215 and 217 Requena street, for \$10,500. J. L. Dean will build for Lewis Newman two three-story frame apartment houses, one on Figueroa street, between Eleventh and Twelfth streets; the other on the same street, between Pico and Fourteenth. They will cost \$18,000 apiece.

Stag Luncheon at Angelus.

Fred C. Fenner, owner of the Big Horn mine on North Baldy Mountain and mining man of experience, was the host at a stag luncheon given at the Angelus Grill yesterday noon. Covers were laid for five and the affair was a most enjoyable one. Mr. Fenner left later for his mine, which is one of the most promising grade gold propositions in this county.

Child Taken Poison.

The 5-year-old daughter of N. F. Prescott, who resides on San Fernando street north of Ord, was saved from death yesterday only by the prompt work of several physicians. In some manner the baby got hold of a bottle containing aconite and drank a portion of it. The fact that the child had been taken to the hospital by her mother, who summoned assistance and the proper antidotes were administered. The physicians worked several hours before the child was pronounced out of danger.

A telegram has been received by the Santa Fe System, Topeka, giving the welcome news that Col. Thomas Hollister's condition is favorable. It was thought that he was fatally injured in the truck wreck when Consul Mrs. Booth-Tucker was killed. The arrangements for the large memorial service to Mrs. Booth-Tucker, which will be held in the Baptist Temple Sunday afternoon at 3 o'clock. Many ministers will be present, and some will take part. Hon. J. S. Slavens will deliver a eulogy on behalf of the citizens and friends. Col. George French will be in charge of the service.

Fell from a Car.

Miss Rosa Boyce of No. 818 Broadway, was seriously injured last evening near the corner of Ninth and Spring streets by falling from a car. She was a passenger on car No. 242 of the University line, and as she approached the stop intending to alight, the sudden checking of the speed of the car caused her to fall through the rear entrance and strike on the pavement. She was picked up unconscious and carried into a neighboring business house and later to the Receiving Hospital. There it was found that she was suffering from concussion of the brain and that she had sustained a number of severe bruises. After her wounds were dressed she was conveyed to her home.

New Pico Heights Church.

The Methodist Episcopal Church on Peders street, Pico Heights, last night set to work to secure a new church building before the great conference meets here next May. In response to a call of the pastor, Rev. H. M. White, about one hundred members assembled last night, and after discussion unanimously decided on building the present small quarters having become entirely inadequate. The plan is first to build a large Sunday-school room, capable of seating fully 500 persons, which may be used for an auditorium while the church proper is being built in front of it. A suggestion to locate the new church farther east was defeated, and the site will be in the immediate vicinity of the present building.

Baby's Great Luck.

Only providential luck preserved a little Mexican child from being ground into a mush under the wheels of a motorcar electric car, just beyond Eastlake Park late Tuesday afternoon. Dolores Loustannan, the five-year-old child of a laborer living on the Mission road, wandered onto the tracks, and one of the big cars rumbled down upon her. The baby was struck, knocked down and rolled along in a cloud of dust for a distance of about 100 feet before it came to rest. Spectators fully expected to gather up the little body with life extinct. But she was alive and hurried to the County Hospital near by. There it was found she was but slightly bruised and scratched, and yesterday her parents took her home apparently as well as ever.

BREVITIES.

Real estate advertisers and others: Hereafter all real estate and other classified "want" advertisements for Sunday insertion must be in The Times office not later than 11 o'clock Saturday night in order to be properly classified. All small advertisements received after the hour will be printed under a special heading of "Too late to classify." Special request is made of those telephoning "Lines" to do so before 10 p.m. each night.

The real estate firm of Davison & Longue will in the future be under the firm name of M. M. Davison & Son, Mr. Longue having sold his interest to the Davisons, who will continue the real estate and loan business at the old stand, rooms 244-4 Wilcox Building.

You can save one half and over; \$3.00 and \$4.00 eyeglasses and spectacles. Gold-filled, with best crystal lenses. Warranted for ten years, at \$1.50. Two experts and State registered opticians in charge. Clark's jewelry and optical store, 281 South Spring.

To Printers—The Times has for sale a number of fonts of display advertising type in fair condition. The type will be sold by the pound at very moderate prices. Apply at once, in person or by letter, at business office.

All patrons desiring portraits finished for the holidays, are advised to have sittings made at once. Couples, photographer.

Croft's Fifth avenue tailored hats. Second shipment now ready. Spier, Ladies' Hatter, 131 S. Spring st., sole agent. Connelly turbans, second shipment now ready. Spier, Ladies' Hatter, 121 S. Spring st., sole agent.

Idyllwild, Strawberry Valley, Riverside county, open all the year round. Furs remodeled, D. Bonati, 212 S. Broadway.

There are undelivered telegrams at the Postal Telegraph-Cable Company for C. O. Conley, California Rose Company.

The following telegrams are at the Western Union office: Gov. George

Chamberlain, Gen. McDowell, Miss Alice Cooper, Miss Harriet Charles F. Hunt, D. O. Mahoney (care W. H. Allen), I. H. Barnes, William Clifton, Miss Adele Merrill, Mrs. Alice Hatch, Vicari Savarria, C. M. Hartford, H. J. Lamar, Jack Darrell, Jim Kenney, J. W. Nier, Mrs. Concepcion Heredia, Mrs. Lee Jackson, Mr. and Mrs. Martin Kaempfer, A. L. Sheridan, Mr. L. Marcolio.

PERSONAL.

George Hart of the Natick House has gone to San Francisco on a short visit. P. M. Thompson, an attorney of Chicago, is at the Angelus with his family.

Robert Rae, a mining and business man of Morenci, Ariz., arrived at the Angelus yesterday.

Peter Harvey, general agent of the Baltimore and Ohio Railroad, is here from San Francisco.

A. J. Barnes of the firm of Barnes & Womple, Chicago, druggists, is staying at the Angelus.
